

Police Activity at Flower Hill Sub-division, November 2009 through April 2010

Notes:

1. The source for these data is RRPD's Computer Aided Dispatch database, which tracks calls as they come into the Police Department. As such, these data are limited in that actual call natures or dispositions may not be accurately captured.
2. All major crime categories are included in the analysis. Thus, if a category does not appear, the subdivision produced no calls in that category.
3. All traffic stops and animal-related calls have been screened from this analysis.

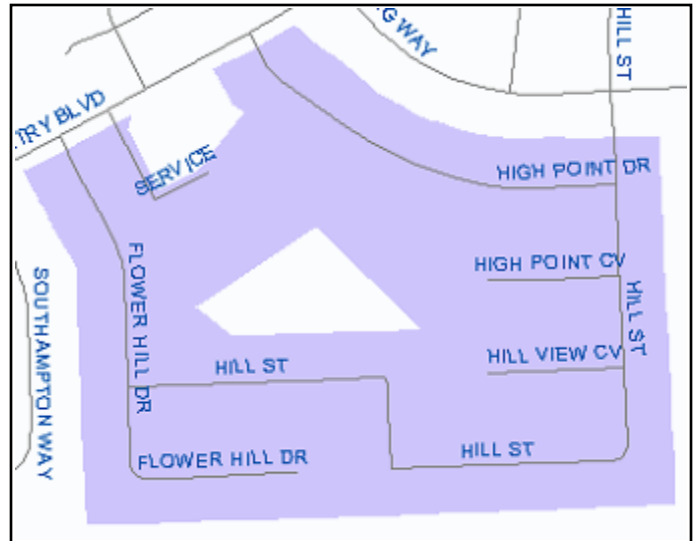

If the police activity on this report appears differently than it has in the past, that is because the unit in June 2007 revised the data queries underlying some of these reports to more accurately capture activity on the streets within the study area. That revision affects not only June activity but also the prior months that appear in the report
